TWENTY-FIFTH BIENNIAL REPORT

OF THE

Montana State Board of Equalization

TO THE

**Governor and Members of the Forty-Third
Legislative Assembly of the
State of Montana**

FOR THE PERIOD

July 1, 1970 to June 30, 1972

Members of the Board

J. MORLEY COOPER, *Chairman*

JOHN C. ALLEY

RAY J. WAYRYNEN

Letter of Transmittal

Helena, Montana
December 11, 1972

To His Excellency, Governor Thomas L. Judge
and Members of the Forty-Third Legislative Assembly
of the State of Montana:

In compliance with the duty imposed upon the Board by Section 84-708(18) of the Revised Codes of Montana of 1947, the Montana State Board of Equalization herewith submits its Biennial Report for the period July 1, 1970 to June 30, 1972.

STATE BOARD OF EQUALIZATION,

J. Morley Cooper, Chairman

John C. Alley

Ray J. Wayrynen

To His Excellency, Governor Thomas L. Judge and Members of the Forty-Third Legislative Assembly:
Gentlemen:

The State Board of Equalization as head of the Department of Revenue submits the Twenty-Fifth Biennial Report.

The following sections of the report will address the duties of the Board as related to property assessment and administration. A separate report has been compiled by the Director of Revenue pursuant to the State Reorganization Act of 1971 and relative to the duties delegated to the Director of Revenue by the State Board of Equalization.

The 1889 Constitution, as amended, and Title 84, R.C.M. 1947, provide that the State Board of Equalization "do all things necessary to secure a fair, just and equitable valuation of all taxable property between different classes of property and between individual taxpayers."

The goals of the Board are to strengthen and improve all assessment programs relating to the administration and implementation of the property tax laws and to further encourage full and open cooperation with county taxing authorities in realization of these goals, assist assessing authorities at the county level to achieve the maximum possible degree of equalization in valuation for tax purposes of all locally assessed properties, both between individual taxpayers and between counties.

The above goal to be attained through the development of a more highly trained staff at the state level to assist the counties in accomplishing the highest degree of uniformity and equalization within and between the several counties.

In the opinion of the Board it is essential to the administration of property assessment to continue and to expand the appraisal training school for the purpose of increasing the competency of the County Assessors, County Commissioners, County Appraisers and others concerned with the principles and techniques of real and personal property assessments.

The appraisal schools conducted, under the provisions of Section 84-708, Subsection 6, R.C.M., 1947, during the past three years have been financed through a grant from the Title I higher education funds and registration fees from the students. Approximately three hundred registrants have attended. The Board has been advised by Dr. Layton Thompson, Professor at M.S.U. and Co-Sponsor of the appraisal school, that additional funds will not be available to the Board for the support of the appraisal school. Future support funds will be requested from the Legislature.

GENERAL RECOMMENDATIONS:

It is recommended that funds be continued to support the cost of conducting the sales ratio studies, which require continous research and updating of the studies. It is further recommended funds should be appropriated to conduct sales ratio studies on all taxable property. The present sales ratio studies are only concerned with single-family residences and city and town lots. Sales information is an absolute necessity to measure the legality and equity of the assessment of appraised property. Without such data it is impossible for the State Board of Equalization to know and show to other assessment officials what must be done to achieve satisfactory tax appraisals.

The State Board recommends an appropriation sufficient to employ an industrial appraiser. A salary of \$14,000 was approved by the 1971 legislature, however, in the past year and one-half the Property Tax Division has received but one response from an industrial appraiser who placed his minimum starting salary in excess of \$16,000.

Industrial property in the state is not being assessed in relation to current appraisals due to lack of expertise in this field of appraising. Neither the county assessing officials nor the State Board have an industrial appraiser on their staff.

The State Board should be provided with additional real estate appraisers and land classifiers to confer with and to advise local assessing officials in methods of appraising, land classification, and grading procedures which will effectuate uniformity and equalization of assessments.

The State Board of Equalization in its Twenty-Fourth Biennial Report made the following recommendations which we believe are essential in order that better technical qualifications and performance of county assessment and appraisal could be accomplished.

(a) The legislature could require that the State Board of Equalization or other state agency establish professional qualifications of assessors and county appraisers and certify applicants as to their fitness for employment on the basis of examinations, past experience and performance and to revoke such certification for good and sufficient cause.

(b) To avoid obstruction to the recruitment and retention of competent professional personnel, the state legislature should not set, or place limits on, the salaries paid assessors or appraisers.

(c) The real estate appraisal and all property assessment functions could be put into a single office under the direction of a professional assessor selected as suggested above.

GASOLINE PRICES

In compliance with Chapter 137, Session Laws of 1957, we have listed gasoline prices as quoted in 55 cities across the nation. Column one is the tank wagon, or so-called wholesale price to the retail outlets or ordinary bulk users. Column two combines this price, with the local dealer markup to complete the retail price less tax. Column three is the combined federal and state tax applicable for each state. Column four is the sum total of the above which provides the price for the product ready for retail delivery.

Following are 1971 averages for 55 cities in cents per gallon, computed from first-of-the-month prices, as compiled in NPN (National Petroleum News). Prices are for regular-grade (house-brand) gasoline.

(a) End of year.

(b) Reflects tax increases during 1971.

(c) Does not include general sales tax.

SUMMARY OF ACTIVITIES

Space allows for only a general summary of the duties and activities of the Board of Equalization. They fall into four general fields.

- (1) Supervision of all state tax laws.
(The State Board of Equalization, as head of the Department of Revenue, under the Executive Reorganization Act of 1971 delegated the administration of certain taxes — mainly license taxes — to the Director of Revenue.)
- (2) Equalization as required in Chapter 7, R.C.M. 1947.
- (3) Assessment of all intercounty property such as railroads, power lines, pipelines, airlines, and telephone lines. The Assessments of net proceeds of mines and ore production, issuance of certificate of number (Boats), and snowmobile registration are further State Board responsibilities.
- (4) Supervision of the appraisal, assessment and equalization of taxable personal and real property in the state.

Taxable value of all property assessed by the State Board approximates 25% of the entire state taxable valuation. Sixty-three public utility assessments were made and when combined with the net proceeds assessments amounted to \$551,939,197. These intercounty properties assessed by the Board are:

Railroads.....	5
Power Lines	4
Telephone Lines.....	6
Telegraph Lines.....	1
Pipelines.....	12
Airlines	4
R.E.A.....	23
R.T.A.....	8

License taxes supervised by the Board are:

Personal Income Tax
Corporation License Tax
Inheritance Tax
Gasoline License Tax
Freight Line Tax

Sleeping Car Tax
Oil Production Tax
Coal License Tax
Carbon Black License Tax
Cement and Plaster License Tax
Contractors Gross Receipts Tax
Cigarette Tax and License
Electrical Energy Tax
Natural Gas Tax
Telegraph Company Tax
Contractors License Tax
Chain Store License Tax
Vermiculite License Tax
Metal Mines License Tax
Telephone License Tax
Express Companies License Tax

CERTIFICATE OF NUMBER

Chapter 230, Laws of 1963 amended Section 69-3502 R.C.M. 1947 by placing the registration of motor boats in the hands of the State Board of Equalization, effective March 9, 1963. Chapter 348, Laws of 1969 amended Section 69-3503, R.C.M. 1947 to require a \$1.00 annual registration fee on all motor boats powered by greater than 8 horsepower. The fee so collected is deposited to the credit of the State General Fund.

	1971	1972
Total Certificates Issued ..	14,772	19,780
Fees Collected.....	\$14,666	\$19,668

SNOWMOBILE REGISTRATION

Chapter 435, Laws of 1971 provides for the display of tax-paid decals on every snowmobile operated in the State of Montana; for the yearly issuance of such decals; for a change in the assessment date of snowmobiles; penalties for violation of this act and amending Section 84-406 R.C.M. 1947. An annual registration fee of \$1.00 is charged on all snowmobiles. The fee so collected is deposited to the credit of the State General Fund.

	1971	1972
Total Decals Issued.....	None	11,512
Fees Collected.....	None	\$11,512

Taxation of Mines

At the time of the constitutional convention, in 1889, Montana's only industries worthy of mention were metal mining and stock raising, with mining greatly predominant. Because of the peculiar character of mining property, and in recognition, perhaps, of the practical impossibility of intelligently valuing our fissure vein mines, the delegates to that convention wrote into the constitution the "net proceeds clause" providing a special method for the assessment of such property. Under this provision and subsequent legislation, mines are assessed by the county assessors at the price paid the Government therefor, and on improvements and machinery of all kinds. If the surface ground has a separate and independent value for some other purpose it is assessed at its full value for such other purpose. Net proceeds are assessed by the State Board of Equalization, such assessment being based on verified statements filed with the board by the producers and certified to the counties in which the mines are situated. The taxable value of the assessment at the price paid the Government (\$2.50 to \$20.00 per acre) and of the net proceeds assessment is 100% of the full and true value. The taxable value of the machinery, structures and appurtenances is 30% of full and true value. These assessments all take the regular levies applicable to the taxing district in which the property is located.

Coal mines, oil properties, lime rock, gypsum and other quarries and mines producing precious and semi-precious gems or stones, or any other valuable mineral or minerals, all come within the provisions of the net proceeds law and are assessed as outlined above.

Royalties

Oil and gas royalties are assessed in the name of the operator who is jointly liable with the royalty owner for the payment of the tax. The tax is payable by the operator, who may withhold an estimated amount so paid from current royalty payments. Other royalties are assessed direct to the royalty owner. Each royalty is valued at the amount received by the owner, and is assigned to Class 1, taxable at 100%.

Mines License Tax

In addition to the taxes paid on the assessments listed above, coal mine operators are required to pay directly to the state treasurer a license tax of 4¢ per ton of 6,000 Btu/lb or less; 6¢ per ton of 6,001 to 7,500 Btu/lb; 8¢ per ton of 7,501 to 9,000 Btu/lb; 10¢ per ton of 9,001 Btu/lb or greater on all coal mined in excess of 5,000 tons annually; oil producers pay 2.1% of the value on the first 450 barrels of all oil produced and 2.65% on the balance of production; cement manufacturers pay four cents per barrel; plaster manufacturers pay five cents per ton, and metal mines operators pay annually a tax based on the market value of the metals produced. Coal, oil, cement, and plaster license taxes are treated more fully in another part of this report.

Metal Mines License Tax

The amount of metal mines license tax is determined by the State Board of Equalization from verified reports filed by the metal producers, and in this connection the board has authority to examine the books of smelters and reduction works if it deems such examination necessary or advisable. The first \$100,000 of gross production in each year pays a tax of .15% plus \$1.00; the next \$150,000 or portion thereof pays a tax of .575 of 1%; the next \$150,000 or portion thereof pays a tax of .86 of 1%; the next \$100,000 or portion thereof pays a tax of 1.15%, and all over \$500,000 pays a tax of 1.438%.

In arriving at the market value of the metals, average quotations in *Engineering and Mining Journal* are used as a base, and from these average prices, the Montana value is determined. The same average prices govern all assessments. The amount payable by the metal producers in 1969 was \$728,208. In 1972 the amount payable is \$1,312,737. All of this revenue is credited to the general fund of the state.

**TITLE 84, CHAPTER 3, REVISED CODES OF 1947 AS AMENDED BY CHAPTER 178,
LAWS OF 1951, CHAPTER 88, LAWS OF 1957, CHAPTER 103, LAWS OF 1961
AND CHAPTER 239, LAWS OF 1961.**

CLASSIFICATION OF TAXABLE PROPERTY.

84-301. (1999) CLASSIFICATION OF PROPERTY FOR TAXATION. For the purpose of taxation the taxable property in the state shall be classified as follows:

Class One. The annual net proceeds of all mines and mining claims, after deducting only the expenses specified and allowed by section 84-5403; also where the right to enter upon land, to explore or prospect, or dig for oil, gas, coal or mineral is reserved in land by any person or corporation, the surface title to which has passed to another, the assessor and the state and

county boards of equalization shall determine the value of the right to enter upon said tract of land for the purpose of digging, exploring, or prospecting for gas, oil, coal or minerals, and the same shall be placed in this classification for the purpose of taxation.

Class Two. All household goods and furniture, including clocks, musical instruments, sewing machines, wearing apparel of members of the family, and all personal property actually used by the owner for personal and domestic purposes, or for

the furnishing or equipment of the family residence; all agricultural and other tools, implements and machinery, gas and other engines and boilers, threshing machines and outfits used therewith, automobiles, motor trucks and other power-driven cars, vehicles of all kinds except mobile homes, boats and all watercraft, harness, saddlery and robes and except as provided in Class Five (b) of this section, all poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by all persons, firms, corporations, and other organizations which are engaged in the business of furnishing telephone communications, exclusively to rural areas, or to rural areas and cities and towns provided that any such city or town has a population of eight hundred (800) persons or less; and provided further, that the average circuit miles for each station on the system is more than one and one-quarter (1¼) miles.

Class Three. Livestock, poultry and unprocessed products of both; stocks of merchandise of all sorts, together with furniture and fixtures used therewith, except mobile homes; and all office or hotel furniture and fixtures.

Class Four. (a) All land, town and city lots, with improvements, and all trailers affixed to land owned, leased, or under contract or purchase by the trailer owner, manufacturing and mining machinery, fixtures and supplies, except as otherwise provided by the constitution of Montana, and except as such property may be included in Class Five, Class Seven or Class Eight.

(b) Mobile homes without regard to the ownership of the land upon which they are situated, except those held by a distributor or dealer of mobile homes as part of his stock in trade, and except as such property may be included in Class Eight.

Class Five. (a) All moneys and credits, secured or unsecured, including all state, county, school district and other municipal bonds, warrants and securities, without any deduction or offset; provided, however, that the terms "moneys and credits" as herein used shall not embrace the moneyed capital employed in the banking business by any banking corporation or individual in this state.

(b) All poles, lines, transformers, transformer stations, meters, tools, improvements, machinery and other property used and owned by cooperative rural electrical and co-operative rural telephone associations organized under the laws of Montana except those within the incorporated limits of a city or town in which less than ninety-five per cent (95%) of the electric consumers and/or telephone users are served by a cooperative organization, and as to the property enumerated in this subsection (b) within incorporated limits of a city or town in which less than ninety-five per cent (95%) of the electric consumers or users will be served by a co-operative organization, such property shall be put in Class Two.

(c) All unprocessed agricultural products either on the farm or in storage, irrespective of whether said products are owned by the elevator, warehouse or flour mill owner or company storing the same, or any other person whomsoever, and excepting livestock and poultry and the unprocessed products of both.

(d) The dwelling house, and the lot on which it is erected, owned and occupied by any resident of the state, who has been honorably discharged from active service in any branch of the armed forces, who is rated one hundred per cent (100%) disabled due to a service-connected disability by the United States veterans administration or its successors.

In the event of the veteran's death, the dwelling house, and the lot on which it is erected, so long as the widow remains unmarried and the owner and occupant of the property, shall remain within this classification.

Class Six. Property formerly included in this class is now classified by section 84-308, R.C.M. 1947.

Class Seven. (a) All new industrial property. New industrial property shall mean any new industrial plant, including land, buildings, machinery and fixtures which, in the determination of the state board of equalization, is used by a new industry during the first three (3) years of operation not having been assessed prior to July 1, 1961, within the state of Montana. New industry shall mean any person, corporation, firm, partnership, association, or other group which establishes a new plant or plants in this state for the operation of a new industrial endeavor, as distinguished from a mere expansion, reorganization, or merger of an existing industry or industries. Provided, however, that new industrial property shall be limited to industries that manufacture, mill, mine, produce, process or fabricate materials, or do similar work in which capital and

labor are employed and in which materials unservicable in their natural state are extracted, processed or made fit for use or are substantially altered or treated so as to create commercial products or materials; and in no event shall the term new industrial property be included to mean property used by retail or wholesale merchants, commercial services of any type, agriculture, trades or professions. And provided further, that new industrial property shall not be included to mean property which is used or employed in any industrial plant which has been in operation in this state for three (3) years or longer. Any person, corporation, firm, partnership, association or other group seeking to qualify its property for inclusion in this class shall make application to the state board of equalization in such manner and form as may be required by said board.

Class Eight. Any improvement on real property, trailers affixed to land or mobile home belonging to any person who qualifies under any one or more of the hereinafter set forth categories, valued at not more than seventeen thousand five hundred dollars (\$17,500), which is owned or under a contract for deed, and which is actually occupied by:

(1) a widow sixty-two (62) years of age or older, whether with or without minor dependent children, who qualifies under the income limitations of (4), or

(2) a widower sixty-five (65) years of age or older, whether with or without minor dependent children, who qualifies under the income limitations of (4), or

(3) a widow with minor or dependent children regardless of age, who qualifies under the income limitations of (4), or

(4) a recipient of retirement benefits whose income from all sources is not more than four thousand dollars (\$4,000) for a single person and five thousand two hundred dollars (\$5,200) for a married couple per annum. Provided, further, that one who applies for classification of property under this class must make an affidavit before the county assessor of the county in which said property is located, on a form as may be provided by the state board of equalization supplied without cost to the applicant, as to his income, if applicable, as to his retirement benefits, if applicable, or, as to his marital status, if applicable, and to the fact that he or she actually occupies such improvements with right of the county welfare board to investigate the applicant, on the completion of the form, as to answers given on the form. Provided, further, that the value of said property shall not increase during the life of the recipient of retirement benefits or widow or widower covered under this class.

Class Nine. Freeport merchandise. Freeport merchandise means those stocks of merchandise manufactured or produced outside this state which are in transit through this state and consigned to a warehouse or other storage facility, public or private, within this state, for storage in transit prior to shipment to a final destination outside the state, and which have acquired a taxable situs within the state.

Stocks of merchandise do not lose their status as freeport merchandise because while in the storage facility they are assembled, bound, joined, processed, disassembled, divided, cut, broken in bulk, relabeled or repackaged.

Any person, corporation, firm, partnership, association or other group seeking to qualify its property for inclusion in this class shall make application to the state board of equalization in such manner or form as may be required by said board.

The state board of equalization shall establish standards, rules and regulations for the guidance of county assessors and assessing freeport merchandise.

Class Ten. All property not included in the nine (9) preceding classes.

84-302. (2000) BASIS FOR IMPOSITION OF TAXES. As a basis for the imposition of taxes upon the different classes of property specified in the preceding section, a percentage of the true and full value of the property of each class shall be taken as follows:

Class 1. One hundred per cent of its true and full value.

Class 2. Twenty per cent of its true and full value.

Class 3. Thirty-three and one-third per cent of its true and full value.

Class 4. Thirty per cent of its true and full value.

Class 5. Seven per cent of its true and full value.

Class 6. Forty per cent of its true and full value.

Class 7. Seven per cent of its true and full value.

Class 8. Fifteen per cent of its true and full value.

Class 9. One per cent of its true and full value.

Class 10. Forty per cent of its true and full value.
